Instructions for Installation and Care of
Honda Pioneer 700-4 Soft Top Cap
HO-7004-TC01

Notice: Do not smoke inside the cab or expose the enclosure to direct flames. Cab is Flammable.

Be sure to read these instructions thoroughly before opening and installing the top cap. The installation is best done when the temperature is 70 degrees F. or warmer. The temperature affects the adhesive Velcro, if conditions prevent installing in warmer weather it helps to store the adhesive Velcro at room temperature prior to installation.

1. Carefully open the carton and remove the enclosure on a large flat surface that is clean and free of dirt.
2. Check over the parts included in the carton with the parts list shown below:

2" Adhesive Velcro Hook strips:	3 each (1 extra)	6" long
Webbing Straps with Grommets	2 each	
Webbing Straps with Velcro	2 each	
Webbing Straps with Loop	4 each	

If any parts are damaged or missing please contact customer service at (606) 845-7439.

3. Begin by wrapping the roll cage with the 6" adhesive Velcro Strips. In the front wrap the bar about halfway down the bar then wrap the double-sided Velcro strips sewn to the webbing strap around the adhesive Velcro. The strap with Velcro should look like the photo below.

4. Next take the other two straps with loop sewn on one end and wrap them around the roll cage on the cross bar. See photo on next page.

5. Now place the top over the entire vehicle, the front of the top is identified by the sides being more steeply curved, and begin by lacing the front straps through the ladder lock buckles sewn to the front corners of the top. Diagram below shows how to use ladder buckle.

6. Now run those straps up and through the ladder lock buckles sewn to the rear of the top. You now need to tighten and loosen the strap of the top so that it is centered correctly.

Thank you for your purchase!
